

ROOF CURBS & HATCHES

PRODUCT FEATURES

METAL BLDG. ROOF CURBS

- 20yr. Manufacturers warranty available.
- Curbs can be made out of 18ga. or 14ga. Galvalume or Galvanized steel.
- .080 & .063 aluminum construction is available.
- 1-1/2" thick 3lb. density fiberglass insulation is standard.
- All seams are continuously welded.
- Fully welded Crickets (water diverters).
- HVAC, pipe penetration, two-piece, three piece, platform, ridge mounted style curbs are available.
- Metal building panel high ribs are made per order depending on the specific roof panel manufacturer and profile style. High ribs can be welded or loose, as over the panel ribs or under the panel ribs (downhill side only).
- Painted curbs to match roof color is available.
- Typical fabrication lead time is 2 weeks (call for current lead times).

ROOF HATCHES

- Engineered with compression spring operators to provide smooth, easy, one-hand operation.
- Automatic hold-open arm locks the cover in the open position to ensure safe egress.
- Overlapping cover design, fully welded corners on cover & curb, EPDM rubber gasket and fully insulated cover & curb ensure weather-tightness & energy efficiency.
- Constructed with corrosion resistant materials to provide many years of trouble free, dependable service.
- Heavy gauge construction and positive latching mechanism maintain building security.
- Available in many sizes and curb configurations to satisfy any requirement or installation.
- Steel or Aluminum construction available.
- Single or Double door exit door designs available.
- Certain hatch sizes are now Miami-Dade approved.
- Ladder Up Post and Perimeter safety railing systems available as well.
