

UNIVERSAL SAFETY ANCHOR

INTRODUCING THE UNIVERSAL SAFETY ANCHOR FOR STANDING SEAM METAL ROOFS

The Universal Safety Anchor (USA) is a new type of anchor that can be used as a permanent or temporary tie off point on your standing seam roof

Previous anchor points are now obsolete by eliminating the following problems:

- NO MORE adjusting set screws!
- NO MORE replacing parts!
- NO MORE set screws gouging and damaging panels!
- NO MORE voiding manufacturers warranty on panels!
- NO MORE rusting of panels when anchor points are removed
- NO MORE complaining customers of excessive damage to roof
- NO MORE dismantling of anchor point required

OPEN - CLOSE - TORQUE - IT TAKES LESS THAN A MINUTE TO INSTALL!
